

SI368 Portable DO meter can test the dissolved oxygen in water, which is used in many fields like aquaculture, water treatment, environmental monitoring, river regulation and so on.

FEATURES

- Automatically lock the reading
- Sensitive reaction accurate measurement
- Automatic temperature compensation
- Auto power off saves the battery
- Wide measuring range

TECHNICAL SPEC

Measure range	0.00~20.00 ppm ; 0.00~ 200.0%
Resolution	0.01 ppm ; 0.1%
Accuracy	±2% F.S
Temperature Measuring Range	0-100.0°C/32-212°F
Working Temperature	10~60°C
Automatic Temperature Compensation	0.0-60°C
Temperature Resolution	0.1°C/1°F
Calibration	1 or 2 points(100% saturation or 0% anaerobic)
Battery	1 x 1.5V AAA Battery
Dimension	185 x 40 x 48 mm
Weight	95g
