

### Features :

- Electrochemistry sensor
- 3.5" LCD display
- Temperature and Humidity sensor
- 5V Micro USB Charging
- Large 2000mAh capacity lithium battery

### Applications :

- Workspace & School
- Agricultural Industry
- Residential space
- Chemical Industry

### Technical Specifications

Display	:	3.5" LCD display
Measurement Gas	:	NH3/Temp/Humidity
Measuring range NH3	:	0 - 50PPM
Resolution	:	0.001 PPM
Sensor Type	:	Electrochemistry
Measuring range Temperature	:	-10 ... 50°C   Accuracy : ± 1°C
Measuring range Humidity	:	20% ... 85% RH   Accuracy : ± 4%RH
Power supply	:	Built in Li-battery 2000mAh
Battery	:	5V Micro USB Charging
Material	:	ABS
Product size	:	240 x 125 x 110mm
Net Weight	:	160g
Package	:	Main Unit , Charging Cable
